CODO OB & OG

STUDENTS HAVE BEEN APPLYING LEARNED KNOWLEDGE INTO REAL LIFE

I CAN WORK FOR A JAPANESE COMPANY NOW FOR STUDYING AT CODO.

PRABATH DINUKA
From Sri Lanka

I came to Japan in 2003 to take part in a 1-year and a-half course. Teachers are very devoted in providing interesting lessons, so I can clearly understand grammar, dialogue and Chinese characters. For a person who doesn't come from a Chinese-taught area, I think teaching Chinese characters at CODO is very impressive and easy to understand. I could get the points of lectures at university, then I applied for a job in a Japanese company. Now I am working like a Japanese person. I believe that my Japanese is my weapon as I have studied Japanese carefully at CODO.

Student

Currently

LEARNED KNOWLEDGE AT CODO HAS HELPED ME A LOT.

TRAN THI HUYNH
From Vietnam

I came to Japan in 2010. I was taught not only Japanese but also style, honesty, attention to the surrounding which are indispensable in Japan. Currently, I am working for a information technology and system company. My work is to interpret and contact Vietnamese partners. My company told me that they could easily find a person who could speak Japanese but couldn't find a reliable and styled person. I can feel that my learned knowledge at CODO is showing its advantages in my current life.
